Jatin Bisht

Full-Stack Software Engineer · Python · FastAPI · React.js · Next.js · Cloud & DevOps

Mumbai, India · jatinborabisht@gmail.com · linkedin.com/in/jatin-bisht-1b6a3b419 · github.com/jatinborabisht

SUMMARY

Full-stack engineer who builds and ships production web apps with Python, FastAPI, React.js and Next.js, and deploys them with Docker, GitHub Actions and Nginx on Azure and GCP. Delivered a live clinic-management system for a Mumbai client with 20+ documented REST APIs, JWT auth and RBAC. Certified in Gen AI for test automation.

TECHNICAL SKILLS

Languages	Python, JavaScript (ES6+), TypeScript, Java, SQL, Bash
Frontend	React.js, Next.js, SvelteKit, Vite, Tailwind CSS, HTML5, CSS3, responsive design
Backend & APIs	FastAPI, Node.js, Express, REST, Swagger/OpenAPI, JWT, RBAC, Prisma, Microsoft Teams bots
Databases	PostgreSQL, MySQL, SQLite — relational schema design and query optimization
Cloud & DevOps	Azure VMs, GCP, Docker, GitHub Actions, Nginx, SSL/TLS, DNS, Linux, Vercel, Render
Testing & AI	Vitest, Playwright, Postman, Testsigma, AI-assisted test automation, prompt engineering
Practices	Git, Agile/Scrum, data structures & algorithms, OOP, system design, performance optimization

EXPERIENCE

Junior Software Engineer · Aarama Ventures Pvt. LLP, Mumbai — Mar 2026 – Present

- Build and ship production full-stack applications with Python, FastAPI, React.js, Next.js, Vite and Node.js.
- Design and document REST APIs in Swagger/OpenAPI, giving frontend and client teams one testable reference.
- Own the release path — GitHub Actions CI/CD, Docker images, and hosting on Azure VMs and GCP.
- Configure Nginx reverse proxy, load balancing, SSL/TLS and domain routing, improving deployment reliability.
- Contribute to sprint planning, code reviews and iterative delivery in an Agile/Scrum team.

Developer Intern · ExclCloud, Bengaluru — Dec 2024 – Feb 2025

- Shipped features across core product modules with SvelteKit and Node.js.
- Optimized backend logic and data-processing workflows to improve performance and responsiveness.
- Built and deployed a Microsoft Teams bot on REST APIs that automated employee reward tracking.

PROJECTS

ManageAll — Dental Clinic Management | FastAPI, Next.js, PostgreSQL, Docker, Azure — Client · Live

- Shipped appointments, patient records, billing, invoicing and doctor allocation for a Mumbai clinic.
- Developed, documented and tested 20+ REST APIs on PostgreSQL, secured with JWT and RBAC.
- Deployed on an Azure VM with Docker, Nginx, SSL, domain routing and CI/CD for faster, low-risk releases.

Pastebin Lite | Next.js, TypeScript, Prisma, PostgreSQL, Vitest, Playwright — Live · GitHub

- Built a snippet-sharing app whose pastes expire after a time limit or a set number of views; deployed on Vercel.
- Covered it with unit tests in Vitest and end-to-end tests in Playwright.

Online Bookstore — E-Commerce | Node.js, Express, MySQL, JWT — GitHub

- Built customer and admin roles, MySQL inventory, and server-side search and filtering; deployed on Render.

Restaurant Menu | SvelteKit, Tailwind CSS, Vercel — GitHub

- Built a responsive, mobile-first menu with dynamic category filtering.

EDUCATION

MCA · CMR University — 2023 – 2025

BCA · Amrapali Group of Institutes — 2020 – 2023

CERTIFICATIONS

Gen AI Capabilities · Testsigma — Sep 2026

Programming in Java · NPTEL, IIT — Oct 2024

AWS Billing & Cost Management · AWS — Dec 2023
